

Pumping Septic Tank (not located / not uncovered)

Starts @ \$ 500

This is if our technician must physically locate and/or remove the dirt from the top of the tank. Be advised that our technician will make every effort to locate your tank. However, if he is unable to locate your tank, there will still be a trip charge starting at \$100

Pumping Septic Tank (uncovered)

This is if our technician arrived on site and the owner/contractor has already removed dirt from BOTH ENDS of the septic tank, exposing the lids (or the tank has lids/risers at surface level)

Starts @ \$ 350

Septic Tank and Residential Grease Trap Services

A. L. Lowder, Inc. has been a trusted name in the septic tank industry for decades. Our service technicians are very knowledgeable about everything that goes into septic tank pumping. Whether we're on your property for residential or commercial septic services, our employees treat customers with absolute courtesy. Our company also manufactures and delivers concrete septic tanks to job sites. When you want full-service septic tank assistance, count on us.

Grease Traps protect the wastewater that goes into community sewer systems by keeping the grease separate. Let our team come out to your residence and provide grease trap cleaning services to give you a fresh start. We will ensure the proper function of your grease trap and keep it in the best shape to continue running efficiently for years to come.

How do I know if my septic tank needs pumping?

- ✓ Lush patch of ground or a soggy spot in your yard.
